

Virilio: thinker of speed and only speed.

Fire - qiles { warmth  
light → more time to see things / respond, organize  
time to digest. (can't do other things)  
weapons - kill things faster  
→ make you more efficient in daily life

How was city originated?

Virilio.

from commerce  
Virilio says we've  
been doing that e.g.  
caravans

from need  
of defense:  
(build wall)

London's Tower seems small to day,  
but it was great technology back then.

"dialectical"

- p. 30
1. Tactics - actions for survival.
  2. Strategy - long term of tactics  
long term goal.
  - 3 Logistics - your strategies taking  
into account the strategies of  
others (competitors)

p. 35 Esso: France's main source of energy,  
demands the protection and technology  
in order to run

old fashioned war: fought on the battlefield.

You have the chance to negotiate. Politics needs time.

Nowadays, you don't have time to negotiate. Think  
about Dr. Strangelove.

When everyone has nukes, you just want to stay alive.

War is not direct: or else mutual destruction.

So we do containment/deterrent, fight in isolated places  
e.g. Syrian War gone on for 8 years.

Syria is geopolitically ideal.

Russia annexed Crimea from Ukraine & has access to med sea.  
Iran's with Russia, Saudi's against

Why this a pure war?

So many things going on, no one can end the war.  
(without ~~using~~ resorting to nukes)

On Asian front, artificial islands are displeasing the  
territories

nukes have devastated Hawaiian islands.

Because we have this massive global mess, defence  
is eating up our resources, develop "bad" technology.  
Another characteristic of Pure war: Russia invaded Crimea,  
but they are secretive

Fujitsu Frontech North America Inc. | learning to code, really interested in pos software.

- terminals, self-checkout systems, kiosks, RFID linen tags?

- what programming language?

- What is Pervasive Retailing environments?

- Fujitsu V-Scan (self-checkout) - cashless, cash-handling,

- Ventur cash box safes

- "bill recycling unit" \* touchscreen LCD\*
